American Book Company

NEW BOOKS of this Company are notable for the variety, and in some instances for the novelty of the subjects treated, as well as for the ripe scholarship, professional skill, and school experience that have been employed in their production. They are evidence of the Company's well-known policy of keeping abreast of the times and in touch with the best educational thought of the day. A partial list of these new books is given on the opposite page.

Besides these, the Company issues the leading American text-books for Common Schools, High Schools, and College Preparatory Schools, books that are in satisfactory use in nearly every country and city school, public and private, in the United States. They possess those subtle, indefinable qualities which cause school books *to wear well*. By careful revision whenever necessary these books are kept constantly fresh and up to date, so that practically they are new books, with the advantage of having stood the test of use.

Orders by mail receive prompt and careful attention. An important and attractive feature of the Company's business is that they make no extra charge for delivery. Another is the number and variety of their publications, enabling them to supply every need in school books, a convenience appreciated by purchasers.

A *Bulletin of New Books* is sent free on request. Address American Book Company, New York, Cincinnati, Chicago, Boston, or Portland, Ore., whichever is nearest.

G. W. Holden,

President of The Holden Patent Book Cover Company, Springfield, Mass.,

G. W. HOLDEN.

Duluth, Faribault, Moorhead, and Princeton, Minn., and was used last year in nearly all the large cities of Massachusetts, Maine, New Hampshire, and over one hundred city and country school boards in Pennsylvania.

Supt. Hotchkiss, of Meadville, Pa., writes: "One year's experience with your 'System for Preserving Books' has satisfied us that it is a first-class investment." Supt. Boger, of Lebanon, Pa., says the system "gives great satisfaction." Supt. Phillips, of Scranton, adds that "it requires no argument whatever to convince our school board of its great practical value." Many others might be quoted.

The system gives a complete protection to both the outside and inside of the book. There are school boards in all parts of the country that find it difficult to get the money they consider necessary for the proper equipment of the schools; none, we warrant, have too much. How essential then it is that the funds shall be used economically. In places where the children are provided with free books the school managers should not overlook the claims of such a well-tried scheme as the Holden System for Preserving Books. One size (No. 2) of HOLDEN'S NEW PATENT COVERS is adjustable to eighty per cent. of all books published, and is very easily and quickly applied. We advise our readers to send to this company for samples.

is the inventor of the "*Holden System for Preserving Books*," consisting of HOLDEN'S NEW PATENT ADJUSTABLE BOOK COVERS, HOLDEN'S PATENT SELF-BINDERS for repairing a loosened leaf, and HOLDEN'S TRANSPARENT PAPER for repairing a torn leaf, which has proved so valuable the past year in Pennsylvania and elsewhere, as to be specially mentioned in commendation in the Pennsylvania State Report. This system was officially adopted July 3 by the State Board of Education of Delaware, and it has recently been adopted by the school boards of Pittsburg, McKeesport, Uniontown, Buffalo, Syracuse, Niagara Falls, Ellsworth, and Rockland, Me.,

*"In paper as fashions, the same rule will hold,
Alike fantastic if too new or old;
Be not the first by whom the new is tried,
Nor yet the last to lay the old aside."*

THE
AMERICAN EDUCATIONAL CATALOGUE FOR 1894.
[PUBLISHERS' PRICES.]

NOTICE.—In this Catalogue only prices made by publishers themselves are given—retail, if retail, in first column; “net” (wholesale), if “net,” in second column; where a “mailing” percentage is specified by the publisher, the “mailing price” is given in the retail column marked with an asterisk (*), in addition to the wholesale price. When price-columns are left blank, the publisher failed, on application, to furnish price. A double asterisk (**) in price-columns designates books forthcoming. New books, issued since the publication of the Catalogue of 1893, are designated by a single asterisk (*) before title.

In comparing prices or ordering at retail, private buyers should bear in mind that a percentage must be added to prices quoted at wholesale, to cover freight, handling, delivering, etc. Discounts on quantities vary on different lines, according to the kind of prices adopted by the respective publishers.

For subject classification (and for collective references to classic authors entered here under separate editors), see the second part of the Catalogue, following this main alphabet.

HISTORY.

Young Folks' History of the United States. By Thomas Wentworth Higginson. With maps and illustrations, an appendix covering a list of books for consultation, Constitution of the United States, Chronological Table, Index, and a Series of Questions. 12mo, \$1.00.

English History for Americans. By Thomas Wentworth Higginson, and Edward Channing, Assistant Professor of History in Harvard University. With 77 illustrations, 6 colored maps, bibliography, a chronological table of contents, and index. 12mo, xxii-334 pages, \$1.20. Prospectus, etc., sent free.

"The volume has been lavishly illustrated, . . . all taking the student away from the ideas of things as he sees them about him, and giving an idea of their real relation to him and his forefathers. The six maps have been prepared with great care to omit the superfluous details and to give the clearest ideas of where things happened. The table of contents has been arranged chronologically, providing one of the most usable chronologies of English history available. . . . A book . . . without which no teacher should try to teach English history to American readers."—*Journal of Education*, Boston.

A First History of France. By Louise Creighton. With numerous illustrations and 5 colored maps. 16mo, \$1.25.

"A very satisfactory work. An attractive, readable book."—*School Review*.

The Elements of English Constitutional History from the Earliest Times to the Present Day. By F. C. Montague, M.A., Professor of History, University College, London, late Fellow of Oriel College, Oxford. 12mo, 254 pages, \$1.25.

"A decidedly good little book; careful in its statements, judicious in its views, fairly methodical in its arrangements, and well written. It is, on the whole, better than any other of the short introductions to English constitutional history that we are acquainted with. It is clearer, more literary, less repulsive in its mass of facts, and better put together. It will leave the student nothing to unlearn, and build a good foundation for wider knowledge."—*Athenaeum*.

Key and Supplement to Longmans' French Grammar. Containing the translation of all the exercises, with copious notes, explanation of synonyms, details of pronunciation, examination papers, etc. By T. H. Bertenshaw, B.A., etc. For teachers only. Crown 8vo, net, \$1.50.

Episodes from Modern French Authors. Edited by W. E. Russell, M.A., Assistant Master at Haileybury. 9 vols. by various editors, now ready, each 40 cents.

**The aim of the series is to choose stories which are simple and interesting, and that each volume, while continuous enough to sustain interest, shall not be of greater length than can be finished in a term or two's ordinary work. Each volume consists of a detached portion of some French novel or story of good style, or of a series of portions of the same story pieced together by short "arguments" in English, so as to keep up the thread of the narrative and preserve continuity of interest in the tale. The want of such reading-books for boys in lower and middle forms of schools have been felt by many teachers of French.

The following works now ready:

Malot's Sans Famille.

Prosper Merimee's Mateo Falcone, Tamanago, and l'Enlèvement de la Redoute.

School Books. To learn that we **do** undersell all competitors, booksellers and school officials have only to secure our quotations on general school books of *all publishers*. To learn the **why**, just consider for a moment that we are *constantly* scouring the whole

country to secure the school books that in any town have been supplanted, so as to sell them in the hundreds of other towns where still in use. A veritable clearing house! Of course we handle shop-worn and second-hand stock as well as new. Send us your list and get our discounts and terms.

We buy School Books

IT DOESN'T PAY to inventory year after year books that have gone out of use in your school or your town. Send us a list of all your unsalable school books right away, and we will make you an offer. The longer you put it off the less their value.

In each volume the author briefly but pointedly recites from twenty-five to thirty-two stirring events in the annals of the respective nations. The tales gathered within these charming volumes have at once the attractiveness of the novel and they merit of truth. "The Romance of Reality," the sub-title of the work, admirably indicates its character, for within its pages may be found grouped the sum of those romantic and eventful incidents which form the pith of the history of the leading modern nations, and many of which have long been favorites in popular lore.

THE ANNUAL LITERARY INDEX, ...1893...

*INCLUDING PERIODICALS, AMERICAN AND ENGLISH, ESSAYS, BOOK-CHAPTERS, ETC.,
SPECIAL BIBLIOGRAPHIES AND NECROLOGY OF AUTHORS.*

EDITED BY W. I. FLETCHER and R. R. BOWKER,

With the co-operation of members of the American Library Association and of the Library Journal staff.

THE ANNUAL LITERARY INDEX for 1893 complements the "Annual American Catalogue" of books published in 1893 by indexing (1) articles in periodicals published in 1893; (2) essays and book-chapters in composite books of 1893; (3) authors of periodical articles and essays; (4) special bibliographies of 1893; (5) authors deceased in 1893. The two volumes together make a complete record of the literary product of the year.

The new volume includes the features of the "Co-operative Index to Periodicals," originally a monthly supplement to the *Library Journal*, then extended into a quarterly in an enlarged form, and later issued as an annual volume.

THE ANNUAL LITERARY INDEX for 1893 forms the second supplement both to the new five-yearly volume (1887-1891) of Poole's Index to Periodical Literature and to the new A. L. A. Index to essays and book-chapters of Mr. Fletcher.

The new volume will more than fulfil the opinion as to the Co-operative Index expressed in the following extract :

"To the literary worker its value can hardly be over-estimated; to the specialist in any branch of science or letters it is indispensable, since it places within his immediate reach many of the latest fruits of labor in the same field— to every one who desires to be well informed it furnishes the means of making the most effective use of his time."—*Providence Press.*

One vol., cloth, (uniform with "A. L. A. Index,") \$3.50.

BOSTON SCHOOL SUPPLY CO., BOSTON, MASS.,

Publish two unique and very attractive series of readers.

THE INFORMATION READERS.

A four-book series differing radically in character from any other in the market. If you believe that school-work should be a preparative for life-work, you will be interested in these books. They represent the most advanced pedagogical thought on the question of supplementary reading material.

WOOD'S NATURAL HISTORY READERS

are : (1) The only reading books ever written by an eminent scientist (the Rev. J. G. Wood, M.A., F.L.S.) (2) They are the only graded science readers ever published. (3) They are the only readers in which the subjects are classified scientifically. In these books Spiders are not ranked with the Insects, nor are anecdotes about Elephants jumbled up with descriptions of Frogs. (4) Children find the six volumes of the series as fascinating as so many Christmas story books.

Would it not be desirable to have such readers in the hands of your pupils?

The Newest Text-Books on History.

Sanderson's Ancient and Medieval History (448 pp.)

AND

Sanderson's Modern History (440 pp.)

Bright, vivid, entertaining and impartial. Emphatically the books for teachers desiring definite results in the recitation hour. Would it not be interesting for you to look at these volumes—the latest ones on the important subject of which they treat?

Send for a full descriptive Catalogue of all our publications.

JOHNSON'S CYCLOPÆDIA.

A NEW EDITION. IN EIGHT VOLUMES.

Entirely Rewritten by the Ablest Specialists in Every Department.

This work, originally published in 1874, has had a wide circulation in all parts of the United States, and has passed through many editions. Within the last decade, however, the progress of discovery in every department of knowledge has made necessary an entirely new standard work of reference. This fact induced the publishers to subject the work to a most thorough revision under the editorial supervision of

CHARLES KENDALL ADAMS, LL.D.,

President of the University of Wisconsin,

assisted by THIRTY-SIX EMINENT AMERICAN SCHOLARS AS DEPARTMENT EDITORS.

The work was begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination. EVERY ARTICLE HAS BEEN REVISED OR RE-WRITTEN, and IS SIGNED by the author or reviser. Every page has been PRINTED FROM NEW AND LARGE TYPE, and the size of the page has been enlarged; thus forming, in fact, an entirely new Cyclopædia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by long experience.

Prospectus and specimen pages, showing type, illustrations, etc., will be sent, gratis, on application.

It comprises in one volume a Dictionary of the ENGLISH LANGUAGE, of GEOGRAPHY, BIOGRAPHY, FICTION, etc.

It has the warm commendation of

Every State Superintendent of Schools in office since its publication and by Educators generally.

THE STANDARD of nine-tenths of the Schoolbooks. STANDARD of U. S. Government Printing Office. STANDARD of U. S. Supreme Court.

during the vacation season, for we make liberal arrangements with teachers who will act as agents. Here are three extracts from over 500 as good which we have received.

"The 'Library of American Literature' is worth more to me in every-day school work than is my entire library of one hundred other works upon modern literature."

"I wish that one quarter of a million school teachers of America could own it. After a Bible, a dictionary and work on teaching, this comes next."

"I know of no one work that would add so much to a teacher's library, no work that would be so beautiful and profitable in its results both to teachers and pupils as this."

The Standard Reference Work on the literature of your country, presenting a general view from the earliest settlement to the present time. Chronological arrangement. Elaborate topical index.
